

How can CASE help your diocese?

CASE can offer a variety of resources which will be expanded as we develop.

We are also very willing to consider any requests made to us by bishops or their advisers. We regard this as our number one priority!

We are happy to assist in the production of printed resources and web site material related to evangelisation, or to make a specific contribution to diocesan study days and assemblies.

We intend to work always in collaboration with, and support of, local people.

What follows are some examples of what we can offer:

General

Workshops or training for clergy and laity on general topics related to evangelisation:

- What is the New Evangelisation?
- Evangelisation and our relationship with other faiths
- What is culture and how should Catholics respond?
- Understanding the New Age and the spiritual aspirations of those outside the Church.
- Evangelisation and Social Justice

Developing diocesan plans

Workshops or consultation on:

- Evangelisation initiatives in England and Wales: a practical guide
- *Novo Millennio Ineunte* and *Ecclesia in Europa*: applying key themes from these documents in the diocese
- Creating or developing a diocesan evangelisation plan

“In today’s Europe too, both in the post-Communist countries and in the West, the parish, while in need of constant renewal, continues to maintain and carry out its particular mission, which is indispensable and of great relevance for pastoral care and the life of the Church.”

Pope John Paul II, *Ecclesia in Europa* 15.
